# Gohan Sprite

This is made from a fan group making custom sprites for "Ultimate LSW" these sprites were made by qsab101: <https://www.deviantart.com/qsab101/art/Ultimate-LSW-Sprite-Collection-695413641>

These were converted into a cross stitch pattern by rollforcrossstitch. The white outside the black lineart is there to support making a reversable keychain with SS!Gohan + Normal!Gohan on either side. You can place them back to back and they should line up.
